Re-Opening of Facilities Now in Progress

We have begun the process of re-opening park amenities and services in phases in accordance with the State's Phased Reopening Plan and associated guidance. As we re-open facilities, you will notice changes in operations to ensure safety for participants and staff. All recreation programs will need to meet or exceed the latest applicable COVID safety guidelines for King County prior to resuming operations. Please recreate responsibly while exploring our local green spaces and follow the latest public health guidelines.

We are committed to operating our parks, facilities, and programs in a way that ensures the health and safety of our community and staff, therefore those activities where physical distancing is not practical remain closed at this time. We appreciate your patience during this transition period and encourage you to stay informed of the latest updates posted on our [website](#). We look forward to resuming operations as soon as possible.
