

COVID-19 Guide for Si View Program Participants

COVID-19 pandemic has brought about many changes to program structure and daily procedures. This guide outlines the steps that Si View Metro Parks is taking to help prevent the spread of COVID-19 and provides information on expectations for all program participants. We are following Washington State Department of Health and CDC guidelines specific to recreation programs. Specific procedures are subject to change as guidelines are revised.

COVID Update Communications

- Learn more about our flexible COVID [refund policy](#)
- Check the latest status of program and facility [updates](#)
- Review program specific email communications sent to registrants

COVID Procedures at Site Entry

- Health screening required for all participants prior to entering program facilities
- Face coverings are required for ages 5 and older indoors and outdoors when physical distancing is not practical
- Public facility access is limited during program hours to avoid crowding
- All program visitors are asked to sign in and provide contact information.

COVID Facility Procedures

- Frequent cleaning and disinfecting schedule of high touch surface areas
- Equipment that is not practical to keep clean has been removed or access is limited
- Access to shared equipment is limited
- Seating areas in common areas may have been rearranged to limit crowding
- Signage in place for directional traffic where necessary and 6 ft physical distancing
- Each program group assigned specific meeting areas to minimize exposure to larger groups.

COVID Program Procedures

- Participants exhibiting symptoms of illness may not attend programs
- Programs have reduced capacity to limit group sizes and overall facility capacity
- Limited rotation of program staff to minimize exposure to large groups
- Increased time outdoors for all programs to the extent possible
- Field trips requiring bus transportation have been suspended
- Access to the Si View Pool is suspended until aquatic programs resume
- Program specific guidance provided directly to registrants.

We look forward to resuming programming in a safe and welcoming environment. Reducing the spread of COVID-19 is a team effort. Our staff is trained with latest COVID safety guidelines. It is important that all participants join in our efforts and follow all safety guidelines as individual actions play a critical role in reducing risk of transmitting the disease.

Participant Expectations

- Follow all program specific guidance provided. These may include items you may/may not bring from home, check in/out procedures, specific group and/or meeting area assignments and others.
- Consider your risks involved in group activities. We recommend that high-risk group or vulnerable participants consult with their medical provider to assess their personal risks and determine if attendance in group activities is appropriate at this time. Similarly, participants with high-risk group family members at home, should consider the risk of participating in group activities and potential exposure to the disease.
- You may not enter the facilities or attend programs when sick or when under quarantine. Health screening must be completed each day prior to entering programs. Anyone with symptoms is sent home.
- Practice good and frequent hand washing hygiene, washing hands with soap and warm water for at least 20 seconds.
- Practice good personal hygiene and avoid touching the face, eyes, nose, or mouth with unwashed hands. Cover your mouth and nose with disposable tissue or the crease of the elbow when coughing or sneezing. Be sure to properly dispose of used tissue immediately and then wash hands.
- Practice physical distancing to the extent possible keeping a minimum of 6ft distance. Help us avoid crowding by not congregating in the common areas/lobby during program hours. Programs have implemented specific procedures for physical distancing applicable in different areas.
- Face coverings are required for everyone ages 5 and older when indoors, and outdoors when physical distancing is not practical. Masks should not be worn by children under the age of 2, or anyone with an underlying health condition that prevents proper use of mask. Si View Metro Parks does not provide masks to participants.
