

## Testimonials

“The dance program is one of the best programs offered in the valley and at Si View. The instructors fantastic! They are very skilled, knowledgeable, and patient and really care for each individual student; the kids can tell that they are valued.”

“This program has allowed our girls the opportunity to dance with heart and spirit, while still giving them time and energy for their studies and friends. There are many dance programs around, but this is the best one by far.”

“Sara and Cris are not only the skilled and talented instructors but also THE role models who we and our children look up to.”

“Our daughter has literally grown up dancing at Si View! I know my children experiencing dance will better them and created opportunities we wouldn't have had without the Si View dance program. It also has been such a joy to watch a program that we have always loved grow and allow even more dancers to be a part of it. Thank you to Cris and Sara and all the other dance teachers over the years!”

“Our dance program may seem like a dance program, but it is a dance family...the teachers and the girls all loving and supporting each other as they grow and change.”

“Sara and Cris are wonderful people. They have a genuine love for what they do, for how they influence and encourage a love of the arts in children; it's easy to see when observing them teach.”

“My daughter loved the dance classes - they were wonderful!!!”

## *Si View Dance*

“We love that theater with an emphasis in dance is available here and it keeps us coming back year after year to Si View. It sets this program apart from many others in the valley. It involves the whole family and touches on more than just one type of talent, age group and style of dance. There isn't another program like it and this year it filled the theater. Word has gotten out that it isn't to be missed.”

“My daughter looks forward to the recital piece every year! It means so much to her to be able to dance on the BIG stage!”

“I adore both Cris and Sara. I appreciate their candor and my kids have loved both of them. We were lucky to have the class right after school, so it didn't overlap with other sports - That was really appreciated.”

“I feel like her confidence as grown so much over the last two years in the program. Ms. Sara has gone above and beyond to make sure she feels like a leader and to build her confidence.”

“Ms. Cris challenges my daughter and pushed her to grow as a dancer while still being very positive and reinforcing her individuality.”

“Love the professionalism from Sara and Cris. That piece is a big deal to the dancers and families and they make sure the performances are top notch! Great program for the community!!!”

“Sara and Cris teach more than dance. They teach theater, community, teamwork, punctuality, respect, the list goes on.”

“Teachers are the best!! They are so good at giving the girls better self-esteem.”

## *Si View Dance*

“I love the dance classes at Si View! The teachers are wonderful and caring but not coddling! My favorite part over all other local dance programs is that Si View does not blast the music and ruin my children’s hearing!! This is quite important to me!”

“I truly hope this program continues on and receives the priority it deserves. Sara and Cris continue to stand out in their ability to teach kids with special needs, differing abilities and extreme talents even within the same rehearsal block on a weekly basis.”

“We love the dance program. Sara and Cris make it a truly amazing experience. My daughter has danced with them for 9 years and loves every minute of it!”

“I am very thankful each year for finding this dance program for my girls! I’ve met wonderful friends with the dance moms and my girls have really thrived with performing without competing. We came from the competitive gymnastics ring and neither have a desire to continue in that manner. We all appreciate the less stress, less drama, more learning and more fun program here. If dancers want to have competition and drama there are plenty of other programs available. Please keep this the same!!!! We also partake in a lot of other Si View programs for all the same reasons!”

“The instructors are knowledgeable in their craft and supportive, kind and encouraging with the students.”

“I love dance community - I grew up in it and that’s why I chose to have my daughters in a community setting. I love that the girls push themselves not in a competitive setting but as a way to grow individually and as a class.”
